

Academic Evaluation Report

SYNTHETIC DEVELOPMENT RECORD — NOT A REAL STUDENT

Student Information

Student:	Daniel Okafor
Date of Birth:	2017-03-22
Grade:	3
School:	Synthetic Elementary School
District:	Synthetic District

Reason for Evaluation

This academic evaluation was completed on 2026-06-05 to update Daniel's reading achievement. The evaluation examines oral reading fluency and reading accuracy related to the documented reading need.

Assessment Information

Evaluation Date:	2026-06-05
Assessment Date:	2026-06-05
Evaluator:	Academic evaluator
Focus:	Reading achievement, fluency, and accuracy

Current educational eligibility remains Specific Learning Disability (SLD) - Reading. This report does not change eligibility, IEP services, or accommodations. Results below are limited to information collected on the academic evaluation date.

Reading Performance

Measure	Result
Oral Reading Fluency	96 WCPM
Reading Accuracy	94%

Assessment Date: 2026-06-05

Interpretation

Daniel's fluency rose from a 70 WCPM baseline to 96 WCPM, while reading accuracy measured 94%.

The 96 WCPM oral reading fluency result is the current evaluation measurement. The 70 WCPM baseline is historical present-level evidence from the September 10, 2025 IEP. This report does not create a new 70 WCPM administration on the evaluation date. The 94% reading accuracy result is a separate construct from oral reading fluency and is not a words-correct-per-minute score.

Academic evaluation documents oral reading fluency of 96 WCPM and reading accuracy of 94 percent on 2026-06-05. These are concurrent measures of different constructs. The 96 WCPM result continues the oral-reading-fluency series that began with the 70 WCPM baseline. The 94 percent accuracy result is not an oral-reading-fluency observation.

Educational Need

Daniel Okafor continues to require specially designed instruction in reading. Recommendations in this report are evaluation recommendations and are not IEP decisions.

Recommendation

Continue specialized reading instruction under the current IEP. These results are evaluation findings and are not IEP service or eligibility decisions.
