Primary Educational Need:	Reading Fluency
Determination Date:	2024-11-01

This IEP implements the educational eligibility determination. It is not a medical diagnosis.

3. Present Levels of Academic Achievement and Functional Performance

Maya has a persistent reading fluency concern. Classroom performance and teacher information indicate difficulty reading connected grade-level text accurately and fluently.

The academic evaluation dated 2024-10-18 documents a reading fluency baseline of 42 WCPM and oral reading accuracy of 86%. Reading comprehension during grade-level text tasks is below expected classroom level. Connected-text reading is slow and effortful, with frequent pauses. Isolated word reading is stronger than connected-text reading.

4. Educational Need

The primary educational need is Reading Fluency. Maya has difficulty reading connected grade-level text accurately and fluently. This difficulty affects Maya's ability to access grade-level reading activities independently.

5. Annual Goal

Given a grade-level connected text passage, Maya will read at least 75 words correct per minute (WCPM) with at least 95% accuracy across three consecutive probes.
